

Lynn Burley Properties

December 2018

Dear Lynn,

I would like to take this opportunity to thank you and your staff for the splendid, professional, efficient and swift job you did in selling our house recently.

This was certainly the fastest that we had ever sold a property and it was also the smoothest list-to-close process we have experienced, but that did not mean you encouraged us to sell below the initial listing price. We were so happy that you were able to get multiple offers and consequently the house sold above the list price.

The property had previously been listed for several months with another realtor whom we had worked well with, but there seemed to be no headway being made even though the house was very well presented.

We decided to try another agent and thought of Burley Properties straight away because you stood out to us some years earlier when we purchased an investment property with our former agent and Burley properties was the selling agent.

From the time of our first meeting with you we felt reassured that we were making the right choice. You displayed exceptional knowledge of the market and the most important **enthusiasm** to get over the line with a completed sale.

Thank you once again and we look forward to doing more business with you.

Sincerely,

Marcus & Veronica S.
