ARLYS®

Legend has it that **ArlyS** the beloved Universal Child arrived mysteriously by **the Sea** being gently nourished by its properties and Earth's botanical treasures. Her eyes, the lightest **crystal blue** — coming from the brightest of stars, Polaris, were said to always sparkle like gems, reflecting a pure sense of Serenity. The essence of **ArlyS** — with her luminous **Flaming Red hair**, is said to be One of an Unflamed Innocent Spirit — Guardian of the Soul — awakening the senses of scented pleasures, captivating the heart — all — with the gentle touch of **Angel wings**. Relax and embrace the **Spirit of ArlyS**.
